

# EzyRiser

## Flush Finish Riser Doors

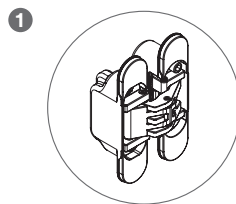

EzyRiser® cleverly conceals the appearance of the access panel by creating a flush finish to the plasterboard and eliminating the need for trims and architraves around the door. With only a 3mm reveal between the door and plasterboard, EzyRiser blends seamlessly into the wall or ceiling, resulting in a frameless access panel. Products supplied as unfinished Zinc Anneal, Dust Power Coat or Full Power Coat.
